Problems We Solve

Early-stage life sciences companies struggle to find:

- Affordable, functional commercial lab space
- Facilities that are ready for immediate use

Most available real estate is:

- Too large
- Too expensive
- Lacking necessary infrastructure

Our Solution

Archimedes eliminates these barriers by offering:

- Smaller, ready-to-use lab modules
- Core equipment and essential services included

This enables startups to:

- Move quickly from concept to proof-of-concept
- Focus on scientific and commercial milestones
- “Hit the ground running”

Where Life Science Startups Launch and Grow

Why Archimedes Matters

- Academic labs often cannot host commercial work due to regulatory restrictions and concerns about intellectual freedom
- Available funding rarely covers both infrastructure and research
- Investors and state grants often prioritize job creation over:
 - Intellectual property (IP)
 - Product development
 - Strategic partnerships

Economic Impact

- ✓ Addressing unmet needs for commercial lab space
- ✓ Creating an immersive environment for biotech startups
- ✓ Accelerating milestones of success
- ✓ Attracting new regional investment

Creating 25+ High-Paying Jobs

Expert Support & Mentorship

- ✓ **Our leadership team includes:**
 - Experienced scientists
 - Business, finance, and legal advisors
 - Patent advisors
- ✓ **We provide hands-on mentoring in:**
 - Ideation to proof-of-concept
 - Intellectual property development
 - Investor and strategic partner relationships

Archimedes has established a Life Sciences business community with a mission directly aligned with New York's economic growth efforts and is well-positioned to meet regional demands by promoting next generation business.
